Document History

Version	Date	Author	Remarks
1.0	Aug 12, 2025	@Sarah Gamboa	
1.1	Dec 17, 2025	@Sarah Gamboa	☑ HA-1494: NZ: HA: Careconnect - 3 New Radiology (CRR) forms + updates to existing Radiology forms - [BA] Analysing & documenting UAT feedback #1 COMPLETED

Introduction

NDHB has requested changes to the Community Referred Radiology Form.

Epic	

As	general practitioners (GPs) and other community-based clinicians
I want	to directly refer patients for publicly funded imaging—such as X-rays, ultrasounds, or CT scans—without requiring a hospital specialist referral. AND to enable expanded and equitable access to HNZ funded radiology including a new model for triaging and prioritising requests
So that	patient access to diagnostic imaging is acccelrated and demand on outpatient and emergency departments will be reduced

Data Specification

Clinical Information Tab - The ACC section, Task Reminder, Urgent section and Measurement Details section will not be changed and will not be stated in this Data Specification

Label	Control	Description / Validation / Help	PP	M	Control Id
	Hidden field	**Set value conditions:** • AULTR: Service <> 'Ultrasound' **Note:** do not show in printable view			location.subservice.code

Special considerations for appointment booking:	Read-only Text				
Details of any mobility or communication issues that need to be accommodated	Text Area	**Validation:** Maximum 500 characters	N	NM	refinfo.considerationIssues
Details of any barriers to attendance or factors impacting appointment timing	Text Area	**Validation:** Maximum 500 characters	N	NM	refinfo.considerationfactors
Copy of report to:	text box	**Validation:** Maximum 50 characters	n/a	n/a	refinfo.CopyTo

Form Configuration

This section specifies form service provider and service name information which is used by Forms Generator to generate forms config and form definition files.

forms config details	value	notes

serviceProviderCode	aklreref	Existing service provider code for the customer
viewName	ADHB_CCradiologyUltrasound	This is form service name in the form config, which will be used as the json and javascript file name
serviceLabel	Radiology - Ultrasound	
serviceCode	183831007	
generateJsFile	true	set to true if you want to generate a skeleton javascript file for this form.

Forms Generator Use Only - Customized Display If Mapping

This section maps special 'Display If's in the spec to exact mapping files in the form definition file, such as external fields in patient or other tabs, and complex logic implemented

with hidden fields.

Field Type	Display if in the spec	displayIf in form definition (json)
external	Patient is Female	ext#patient.gender == 'F'
external	Patient age <=60 years	ext#patient.age <=60
external	Patient age >=11 years	ext#patient.age >=11
external	Recipient = 'Auckland DHB'	ext#administrative.facility == 'D706'
external	Recipient = 'Waitemata DHB'	ext#administrative.facility == 'BA14'
external	Recipient = 'Counties Manukau DHB'	ext#administrative.facility == '9911'

external	Service <> 'Ultrasound'	ext#administrative.referredToService.code == '16310003'
hidden		hidden#
