Introduction

NDHB has requested changes to the Community Referred Radiology Form.

Epic	
As	general practitioners (GPs) and other community-based clinicians
I want	to directly refer patients for publicly funded imaging—such as X-rays, ultrasounds, or CT scans—without requiring a hospital specialist referral. AND to enable expanded and equitable access to HNZ funded radiology including a new model for triaging and prioritising requests
So that	patient access to diagnostic imaging is acccelrated and demand on outpatient and emergency departments will be reduced

Data Specification

Clinical Information Tab - The ACC section, Task Reminder, Urgent section and Measurement Details section will not be changed and will not be stated in this Data Specification
