Introduction

NDHB has requested changes to the Community Referred Radiology Form.

Epic	
As	general practitioners (GPs) and other community-based clinicians
I want	to directly refer patients for publicly funded imaging—such as X-rays, ultrasounds, or CT scans—without requiring a hospital specialist referral. AND to enable expanded and equitable access to HNZ funded radiology including a new model for triaging and prioritising requests
So that	patient access to diagnostic imaging is acccelrated and demand on outpatient and emergency departments will be reduced

Data Specification

Forms Generator Use Only - Customized Display If Mapping

This section maps special 'Display If's in the spec to exact mapping files in the form definition file, such as external fields in patient or other tabs, and complex logic implemented

with hidden fields.

Field Type	Display if in the spec	displayIf in form definition (jason)
external	Patient is Female	ext#patient.gender == 'F'
external	Patient age <=60 years	ext#patient.age <=60
external	Patient age >=11 years	ext#patient.age >=11

Form Configuration

This section specifies form service provider and service name information which is used by Forms Generator to generate forms config and form definition files.

forms config details	value	notes
serviceProviderCode	ndhberef	Existing service provider code for the customer
viewName	radiologyCT	This is form service name in the form config, which will be used as the json and javascript file name
serviceLabel	Radiology - CT	
serviceCode	183833005	
generateJsFile	true	set to true if you want to generate a skeleton javascript file for this form
